Audio Distribution Systems | Amplifiers | Speakers | Audio Servers | NuVoDocks for iPod | Tuners

Serious About Music.

From the artist...to the instruments...to the amplifiers...to multi-room distribution...
to full control throughout the home. NuVo's whole home audio has evolved from
a musical lineage of superbly manufactured products.

You can trust that the company that knows how to produce music is the company that knows how to deliver it. At NuVo, with a staff of performing artists and a history of instrument manufacturing, you could say we have a personal passion for music.

Our critical ear and love for music have been cultivated by three generations and nearly 90 years of audio enthusiasts. In 2002, Hanser Music Group (www.hansermusicgroup.com), the manufacturer of premium musical brands including B.C. Rich guitars, Kustom Amplification and Traben Bass, dedicated the NuVo staff to advancing the in-home audio experience.

Today, with a team of audiophilic engineers and artists who are experts in producing and amplifying music, we use incredible sensitivity to sound to distribute audio in the home without losing its feeling. We are dedicated to bringing you the highest quality sound from the most cutting-edge technologies all in a valuable package. From affordable prices, to straightforward systems, to answering your questions, at NuVo we're committed to making your job simple, because the important part of music is how it makes you feel.

Renovia™

Music should be heard, not seen.

Renovia whole home audio uses the existing electrical wiring in your home to send high fidelity audio to up to 8 rooms. That means installation is uncomplicated, and great sound is the only evidence that Renovia is even there. Renovia fits the unique environment of your home.

In-wall zone amplifier installs discreetly adjacent to an electrical outlet.

Freestanding zone amplifier simply plugs into any outlet. No electrician required.

Renovia™ Features

- Whole home audio in up to 8 different rooms
- Reliable retrofit solution using Homeplug 1.0
- Fast and easy installation with no home run wiring
- Wide range of control options
- 50 watts of power per zone through use of unobtrusive in-wall or desktop zone amplifiers
- Two AM/FM SIRIUS-Ready tuners built in
- Six audio source outputs

* App requires use of the Music Port (MPS4) or Music Port Elite (MPS4-E).

Concerto®

Six sound sources. Eight listening zones.

Concerto by NuVo is a masterpiece in whole home audio. This elegant, intelligent system brings together the industry's most innovative technologies in customization, top-of-the-line features, and incredible precision and performance for a truly powerful system that rocks.

Concerto® Features

- 80 watts of power per zone (1-6) to create an impeccably crisp, clean sound experience at any music level
- Generation D digital amplifier for cooler operation and higher power output
- RS-232 serial port for home automation integration
- Flexible setup options including Source Grouping, Security, Volume Reset, Party Mode, Sleep Timer, and more
- Built-in infrared receiver for wireless control
- Fixed and variable line outputs on all 8 zones

Essentia[®]

Six sound sources. Six listening zones.

Affordability meets sophistication with **Essentia** (NV-E6G) by NuVo. Essentia features energy efficiency packaged with intuitive Control Pads with complete display feedback and 40 watts of high fidelity digital amplification to each of six different zones of the home.

Essentia[®] Features

- 40 watts of power per zone for high-quality sound
- Offers superior power efficiency utilizing less than 1 watt of power in standby mode
- Generation D digital amplifier for cooler operation and higher-power output
- RS-232 serial port for home automation integration
- Flexible setup options including Source Grouping, Security, Volume Reset, Party Mode, Sleep Timer, and more
- Built-in infrared receiver for wireless control
- Fixed and variable line outputs on zones 1 and 2

* App requires use of the Music Port (MPS4) or Music Port Elite (MPS4-E).

Simplese®

Four sound sources. Four listening zones.

NuVo makes startlingly clear, multi-source home sound accessible to more people than ever with **Simplese**, our easiest and most affordable home audio system yet.

Simplese® Features

- 30 watts of power per zone for high-quality sound
- 56 KHz and 38 KHz IR outputs for better compatibility with more source equipment
- Generation D digital amplifier for cooler operation and higher power output
- RS-232 serial port for easy integration with home automation systems
- Learning Remote for control of up to six additional devices
- Unique Allport® single connection wiring system for simple installation with fewer wires

Digital Amplifiers

- Powerful 2 x120 watt (D2120) or 4x60 watt (D460) digital amplifiers
- Designed for maximum efficiency
- More installation versatility
- Selectable ohm ratings 4-8 ohm stable
- Light-weight and slim single rack design

D460 Amplifier
D2120 Amplifier

NV-LSA40S

NV-LSA40PDS

Local Source Amplifiers

The 40 watt stereo Local Source Amplifier (NV-LSA40S) from NuVo gives you the power to amplify any local audio source through the zone's speakers. Designed to fit into a standard decora single gang box, the Local Source Amplifier easily hides behind flat panel televisions, providing an added boost in audio. Or place it discreetly in an open location for a variety of inputs and uses.

The NV-LSA40PDS takes the local source to multiple rooms and allows up to four individual local source amplifiers to be powered from one, central power source.

Music Port™

Whatever Source You Want it to Be.

Today, your music is everywhere – iTunes on the desktop, Windows MediaPlayer on your laptop, and all day long you stream Internet Radio from Pandora, RadioTime, XM and others. Now you can make all these digital libraries available to your whole home audio system, and easily manage them through a single source with the NuVo Music Port or Music Port Elite. From any Control Pad in your home, select music from any of your networked digital libraries. It's basically whatever source you want it to be. What could be more flexible?

Music Port™ Features

Music Port™

- 4 Sources
- Internet Radio
- NuVoNet Smart
- Auto Sync
- Internal storage

Music Port™ Elite

Offers all Music Port Features, plus:

- Network Storage
- IP Control*
- Cloud Sync
- Scheduling

* Crestron, AMX, URC Control compatibility

Source Equipment

T2 Tuner

With reception this remarkable, the T2 Tuner from NuVo (NV-T2) just may be the closest we've come to music from the heavens for an earthbound audience. It combines the best of both terrestrial and extraterrestrial signals in one versatile, energy efficient tuner. With dual AM/FM tuners built in and dual SIRIUS® Satellite-Ready connections, you have the power to customize the same tuner for each unique system.

T2 Features

- Advanced, state-of-the-art tuners for better, clearer reception
- Offers superior power efficiency utilizing less than 1 watt of power in standby mode
- Customizable station preset banks
- Radio Data Service (RDS) and SIRIUS® display information
- Direct infrared input, eliminating the need for IR emitters

NuVoDocks for iPod

Now you can maximize your personal player capabilities, utilizing your Whole Home Audio system, from anywhere in your home. Just dock your iPod® and enjoy full control and navigation from any Control Pad throughout the house while it's charging.

NuVoDock Features

Made for iPod™ means that an electronic accessory has been designed to connect specifically to iPod and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. iPod is a trademark of Apple Inc., registered in the U.S. and other countries.

- Four unique versions:
 - Remote – single CAT5 run for audio, power and data
 - Wireless – transmission radius of 150 ft*
 - Wired Renovia – single 9 pin mini-din connection to Renovia Hub
 - Wall Mount – single CAT5 run for audio, power and data
- iPod® Fast Charging station
- NuVoNet smart source communication for complete control and navigation, browsing by playlist, track, artist, album, genre, or favorites

* Maximum wireless signal range may vary. Network conditions and environmental factors, including building materials and construction may affect signal range.

AccentPLUS2®

NuVo's AccentPLUS2 premium in-wall and in-ceiling speakers were tailor-made for our powerful Concerto System. AccentPLUS2 delivers connoisseur-level sound with deep, rich bass response & flawless performance.

- Durable butyl rubber surround
- Dupont™ Kevlar® driver
- 30° pivoting titanium tweeter
- Enhanced 12 dB crossover
- Anti-debris basket
- Low-profile design with aluminum grill

AccentPlus2®

AccentPlus1®

AccentPLUS1®

NuVo's AccentPLUS1 in-wall and in-ceiling speakers fill every room of your home with impressively full, impeccably clean sound for an audio experience that is never compromised.

- Durable butyl rubber surround
- Polypropylene driver
- 30° pivoting silk-domed tweeter
- 12 dB crossover
- Anti-debris basket
- Low-profile design with aluminum grill

In-Wall Stereo Speaker

NuVo's 7" Single Point In-Wall Stereo Speaker is optimized to produce a stereo image for rich, evenly-distributed sound, all from a single component that fits neatly within a single stud bay.

- Delivers consistent sound field throughout the listening environment
- Computer-optimized three-way crossover design
- Acoustic fourth-order rolloff slopes on all drivers minimizes interaction between speakers
- Three-way system with two 2.5" midranges, two .75" inverted-dome tweeters and a 7" woofer
- Paint friendly, microperf magnetic grill

In-Wall Stereo Speaker

AccentPlus Outdoor

AccentPlus Rock

AccentPLUS® Outdoor

NuVo's premium outdoor speakers are built in acoustically flawless, weather-resistant enclosures to create the same clean sound beyond walls.

- Mineral-filled, acoustically inert polyethylene cabinets
- Inner honeycomb array for increased rigidity
- Bituminous acoustic-dampening material inner lining
- Steel U-bracket for wall mounting and a screw-on mounting foot for flat surfaces
- Available in black and white, 6.5 inch and 8 inch, AccentPLUS1 and AccentPLUS2 series
- Also available, AccentPLUS 1 Rock Speakers in granite and sandstone contoured rock finish.

Color Touch Pad

NV-CTP36 – The new Color Touch Pad provides the most full-system control from an easy-to-navigate touch screen. With a 3.6 inch color LCD screen and source specific control options, it's easy to navigate your integrated audio library, view album art and approve the latest Pandora track. And with zone roaming you can manage your entire house of music from one control location. Compatible with the Grand Concerto and Renovia systems.

Wireless Control

NV-WCP – The Wireless Control Pad puts control in the palm of your hand. Just add a Wireless Control Pad to your system for zone-to-zone RF control. The OLED screen lets the user navigate their music sources and control their entire system with full NuVoNet source metadata—for greater listening power than ever before. Compatible with Essentia, Grand Concerto and Renovia systems.

NuVo App – The NuVo App for iPhone, iPad, and iPod touch devices brings convenient zone-to-zone control of a system right to the Apple products you already use and love. Navigate an entire library with ease, while enjoying full-color album art and customized Internet Radio. **Compatible with NuVo systems which include the Music Port or Music Port Elite.**

Control Options

NV-I8GCP – The dual gang 2.7 inch OLED display is our most popular and elegant display, providing a slick smooth capacitive touch surface, a wide viewing angle, visibility in almost any light, and up to 8 lines of text with full metadata display. Compatible with the Grand Concerto and Renovia systems.

NV-E6GCP – A single gang full control option with a 1.0 inch OLED display is simple and clean, while providing full metadata feedback in 4 lines of text. Compatible with the Essentia, Grand Concerto and Renovia systems.

NV-I8GCP

NV-E6GCP

NV-A4DKP

NV-LRC1

NV-A4DKP – A single gang, simple approach to control for home audio, the backlit A4D keypad provides basic control for source selection, volume, party mode, treble and bass control in an easy-to-use form factor with interchangeable buttons. Compatible with the Simplese.

NV-LRC1 – With over one thousand pre-programmed source codes, NuVo's Learning Remote Control (NV-LRC1) is capable of controlling your NuVo whole home audio system and up to six additional devices.

Accessories

Local Source Interrupt – The NV-LSI provides local zone flexibility to utilize your zone speakers for an externally amplified audio source such as your home theatre. A single trigger from the NuVo system allows the local audio to come alive in the zone.

Mute Interface – The NV-MI1 automatically mutes the NuVo system for a doorbell chime or a phone ring.

Local Source Interrupt

Mute Interface

Metallic Trim Plates

SIRIUSConnect Home
Tuner Module

SIRIUSConnect Home
Outdoor Antenna

Metallic Trim Plates – 5 stylish metallic plates will add the finishing touch to make the Concerto (I8G) Control Pad part of the home decor: Satin Chrome (1), Gloss White (2), Gloss Black (3), Polished Chrome (4) & Satin Nickel (5).

SIRIUS Antenna – Get the power of SIRIUS on the NV-T2SIR with the SIRIUS-Connect Home Tuner Module (NV-SCH1). The included single SIRIUS-Ready connect module and SIRIUS indoor antenna is all you need to add SIRIUS Satellite Radio to your T2 tuner.

SIRIUSConnect Home Outdoor Antenna (NV-SCH-ANT) allows you to mount outdoors for better signal strength.

NuVoNet Adapter – Expand the capabilities of your system to include menu commands of our partner companies. With the NV-NNA NuVoNet Adapter access and control those components directly from the NuVo Control Pads.

Allport Tester – Troubleshoot the inevitable with the NV-AWT1 CAT5 and Allport tester that detects and pinpoints the location of errors.

NuVoNet Adapter

Allport Tester

Learning Station

Demo Displays

Learning Station – The Learning Station provides an easy one-step system for learning, testing, and loading IR codes into the NuVo configurator software.

Demo Displays – The Control Pad Mini Displays give you the powerful hands-on experience of the Concerto (I8G) and Essentia (E6G) Control Pads (NV-GMD), or Color Touch Pad (NV-GMD-CTP).

Showcase the Simplese System with audio in the compact Simplese Speaker Display (NV-A4D-DEMO) complete with 4 active keypads and a pair of our AccentPLUS1 speakers.
